PROJECT EXPERIENCE

↪ E Commerce Website

- ↪ **Frontend with React:** Developed a responsive and interactive user interface for browsing products, viewing details, adding to cart, and checkout.
- ↪ **Backend with Node.js and Express:** Handled server-side operations, including product management, user accounts, and secure API endpoints for authentication and shopping actions.
- ↪ **Database with MongoDB:** Stored product information, user data, and order history, allowing flexible and efficient data management.
- ↪ **Core Features:** Integrated user registration and login, product catalog, shopping cart, order tracking, and secure payment processing.

↪ Hospital Management system

- ↪ **Home Section:** Provides an overview of the hospital's services and key information.
- ↪ **About Us Section:** Displays information about the hospital, including mission and values.
- ↪ **Appointment Booking:** Enables users to schedule appointments with doctors based on selected departments
- ↪ **Messaging Feature:** Allows users to send messages to hospital administration or specific departments.

↪ Google Gemini Clone

- ↪ Utilized `@google/generative-ai` for enhanced, AI-driven features and improved user experience.
-

HOBBIES AND INTEREST

- Passionate about singing, which enhances my discipline, creativity, and ability to connect with audiences—skills valuable in public speaking and teamwork.
- Enthusiastic about public speaking, where I share insights and inspire audiences. This hobby enhances my communication skills and empowers me to motivate others through impactful storytelling.
- Passionate about leveraging technology for social impact and data-driven storytelling.
- Passionate about mentoring, helping others set and achieve their goals. This experience has strengthened my ability to inspire, guide, and encourage others to reach their full potential.
