Core Java Trainee

SMART PROGRAMMING

📅 04/2022 - 06/2022 📍 Remote

An educational platform for software development.

- Completed training in core Java programming fundamentals, including object-oriented programming, basic algorithms."

SKILLS

Frontend Technologies:		HTML	CSS
JavaScript	JQuery	Bootstrap	Reactjs
Redux	TanstackQuery		
•Back-End Development:		Node.Js	Express.js
•Database Management:		MongoDB	MySQL
•Programming Languages:		C	C++ Java
Others:	VS code	Git/GitHub	
RESTful APIs		JSON	

STRENGTHS

- ✓ **Personal Strengths**
 - Resilience
 - Time Management
 - Self-Motivation

PROJECTS

E Commerce Website

📅 11/2024 - Present 📍 Remote

Currently developing an E-commerce website using React.js and Node.js, focusing on building a scalable and user-friendly platform.

- **Frontend with React:** Developed a responsive and interactive user interface for browsing products, viewing details, adding to cart, and checkout.
- **Backend with Node.js and Express:** Handled server-side operations, including product management, user accounts, and secure API endpoints for authentication and shopping actions
- **Database with MongoDB:** Stored product information, user data, and order history, allowing flexible and efficient data management.
- **Core Features:** Integrated user authentication with OTP generation, forgot password functionality, and profile editing. Developed admin, company, and customer panels to manage various operations. Implemented user registration and login, product catalog, add-to-cart functionality, user listing.

Google Gemini Clone

📅 08/2023 - 09/2023 📍 Remote

A clone of Google Gemini featuring AI-driven functionalities.

- Utilized @google/generative-ai to integrate AI-driven features, enhancing functionality and improving overall user experience.
